Troubleshooting & Tips

- Google Drive: Set each folder to 'Anyone with the link ■ Viewer'. Avoid Editor access. Use individual folders per product to prevent cross■access.
- Dropbox: Create a shared link and add "?dl=1" to force direct download.
- OneDrive: Use 'Anyone with link ■ View' and copy the link. If the URL is long, shorten it with bit.ly.
- Replace the placeholder links on page 1 with your real URLs before uploading to Etsy.
- If needed, send extra files via Etsy Orders ■ Complete order ■ Upload files (up to 5 files, 20MB each).
